

Airband & Your Community

Ipplepen

- 2nd November 2021

Paul Nethercott- Community Liaison Executive

Agenda

- Airband: First choice for true ultrafast rural broadband
- Project overview
- Phase F13 Plan (Ipplepen)
- Fibre to the premise (FTTP)
- Broadband packages
- Register your interest
- Installation
- FAQ

Airband

Founded in 2009, Airband is an independent internet service provider (ISP) bringing high speed broadband to homes, business and industry in rural and hard-to-reach areas.

We are proud to work with the Department for Digital, Culture, Media & Sport, BDUK, local authorities and communities to build high availability infrastructure that residents, businesses and other ISPs can access to help overcome the UK's digital divide.

Trusted by governments, industry partners and communities to bring the fastest, most reliable broadband service to rural communities, industrial parks and outdoor sites.

Project Overview

- You may have heard that Airband, in partnership with **Connecting Devon & Somerset**, has been commissioned to build a brand new, ultrafast FTTP (Fibre To The Premises) broadband network to transform connectivity in your area.
- Over the coming weeks and months, we will be working in rural areas across the county, including weekend work, but rest assured that **disruption will be kept to an absolute minimum.**
- Work may involve accessing existing underground ducts and telegraph poles.
- You may also see some new telegraph poles being erected at various locations. For the most part, these new poles will be situated along roads away from residential areas.
- We are working closely with the local authorities to **plan and implement the network build.**

Ipplepen Plan

Ipplepen Plan

F10	Stover
Surveying	Winter 2021
Build	Spring 2022
Completion	Autumn 2022

F12	Broadhempston
Surveying	Summer 2022
Build	Winter 2022
Completion	Summer 2023

F13	Marldon & Coombefishacre
Surveying	Spring 2021
Build	Summer 2021
Completion	Summer 2022

69 Properties Earmarked for Connection (many others on the fibre route will also be offered a connection)

*Build dates estimated, timings may change

Fibre to the Premise (FTTP)

What does FTTP stand for?

FTTP stands for Fibre To The Premises. At Airband we provide this service across our network, bringing ultrafast speeds of up to 1Gbps to our customers in more rural areas. There's no line rental or phone line required, so the price you see is the price you get.

What is Fibre To The Premises (FTTP)?

Fibre To The Premises (FTTP) replaces old copper broadband lines; fibre optic cables are run from your local exchange direct to your premises.

Fibre broadband that's faster and more reliable

Because the fibre cable comes right into the building, there is less 'contention' which gives you a faster and more reliable broadband experience.

Broadband Packages

- **Fibre 100 (100/25)** – standard price £38 RRP. Standard installation £99, **including** router. 18 month contract
- **Fibre 250 (250/50)** – standard price £47 RRP. Standard installation £99, **including** router. 18 month contract

Business Packages and enhanced SLA's available

An Introductory Offer will be available for the first 18 months

Register Your Interest

1

REGISTER INTEREST

Visit www.airband.co.uk –
and enter your postcode
in the handy coverage checker.
Or call **01905 676 121**
to speak to a helpful
Airband salesperson.

2

KEEP IN TOUCH

While the network is being
built, **we'll keep you updated
regularly** via email to let
you know how the project is
going and when we expect
to start taking orders and
installing customers.

3

GET ONLINE

You'll get a **FREE** survey to triple check
there are no issues with you getting
a connection, then an Airband engineer
will connect a fibre optic cable from
the nearest pole or underground
duct to your property, then connect
to your router. **Hey presto –
ultrafast fibre broadband!**

Installation

Twist Port

Fibre Router

FAQ

What is the installation cost?

A standard installation is £99 subject to survey

How will you get to my premise?

To minimise disruption wherever possible we will use existing ducts and telegraph poles to bring the fibre underground or overhead, however some premises may require additional infrastructure.

I am in a contract can I wait to sign up?

A range of options are also available for people wishing to switch contract. Please contact us to find out more

Can I upgrade my service speeds?

We can offer upgrade packages for extra speeds during the life of your contract.

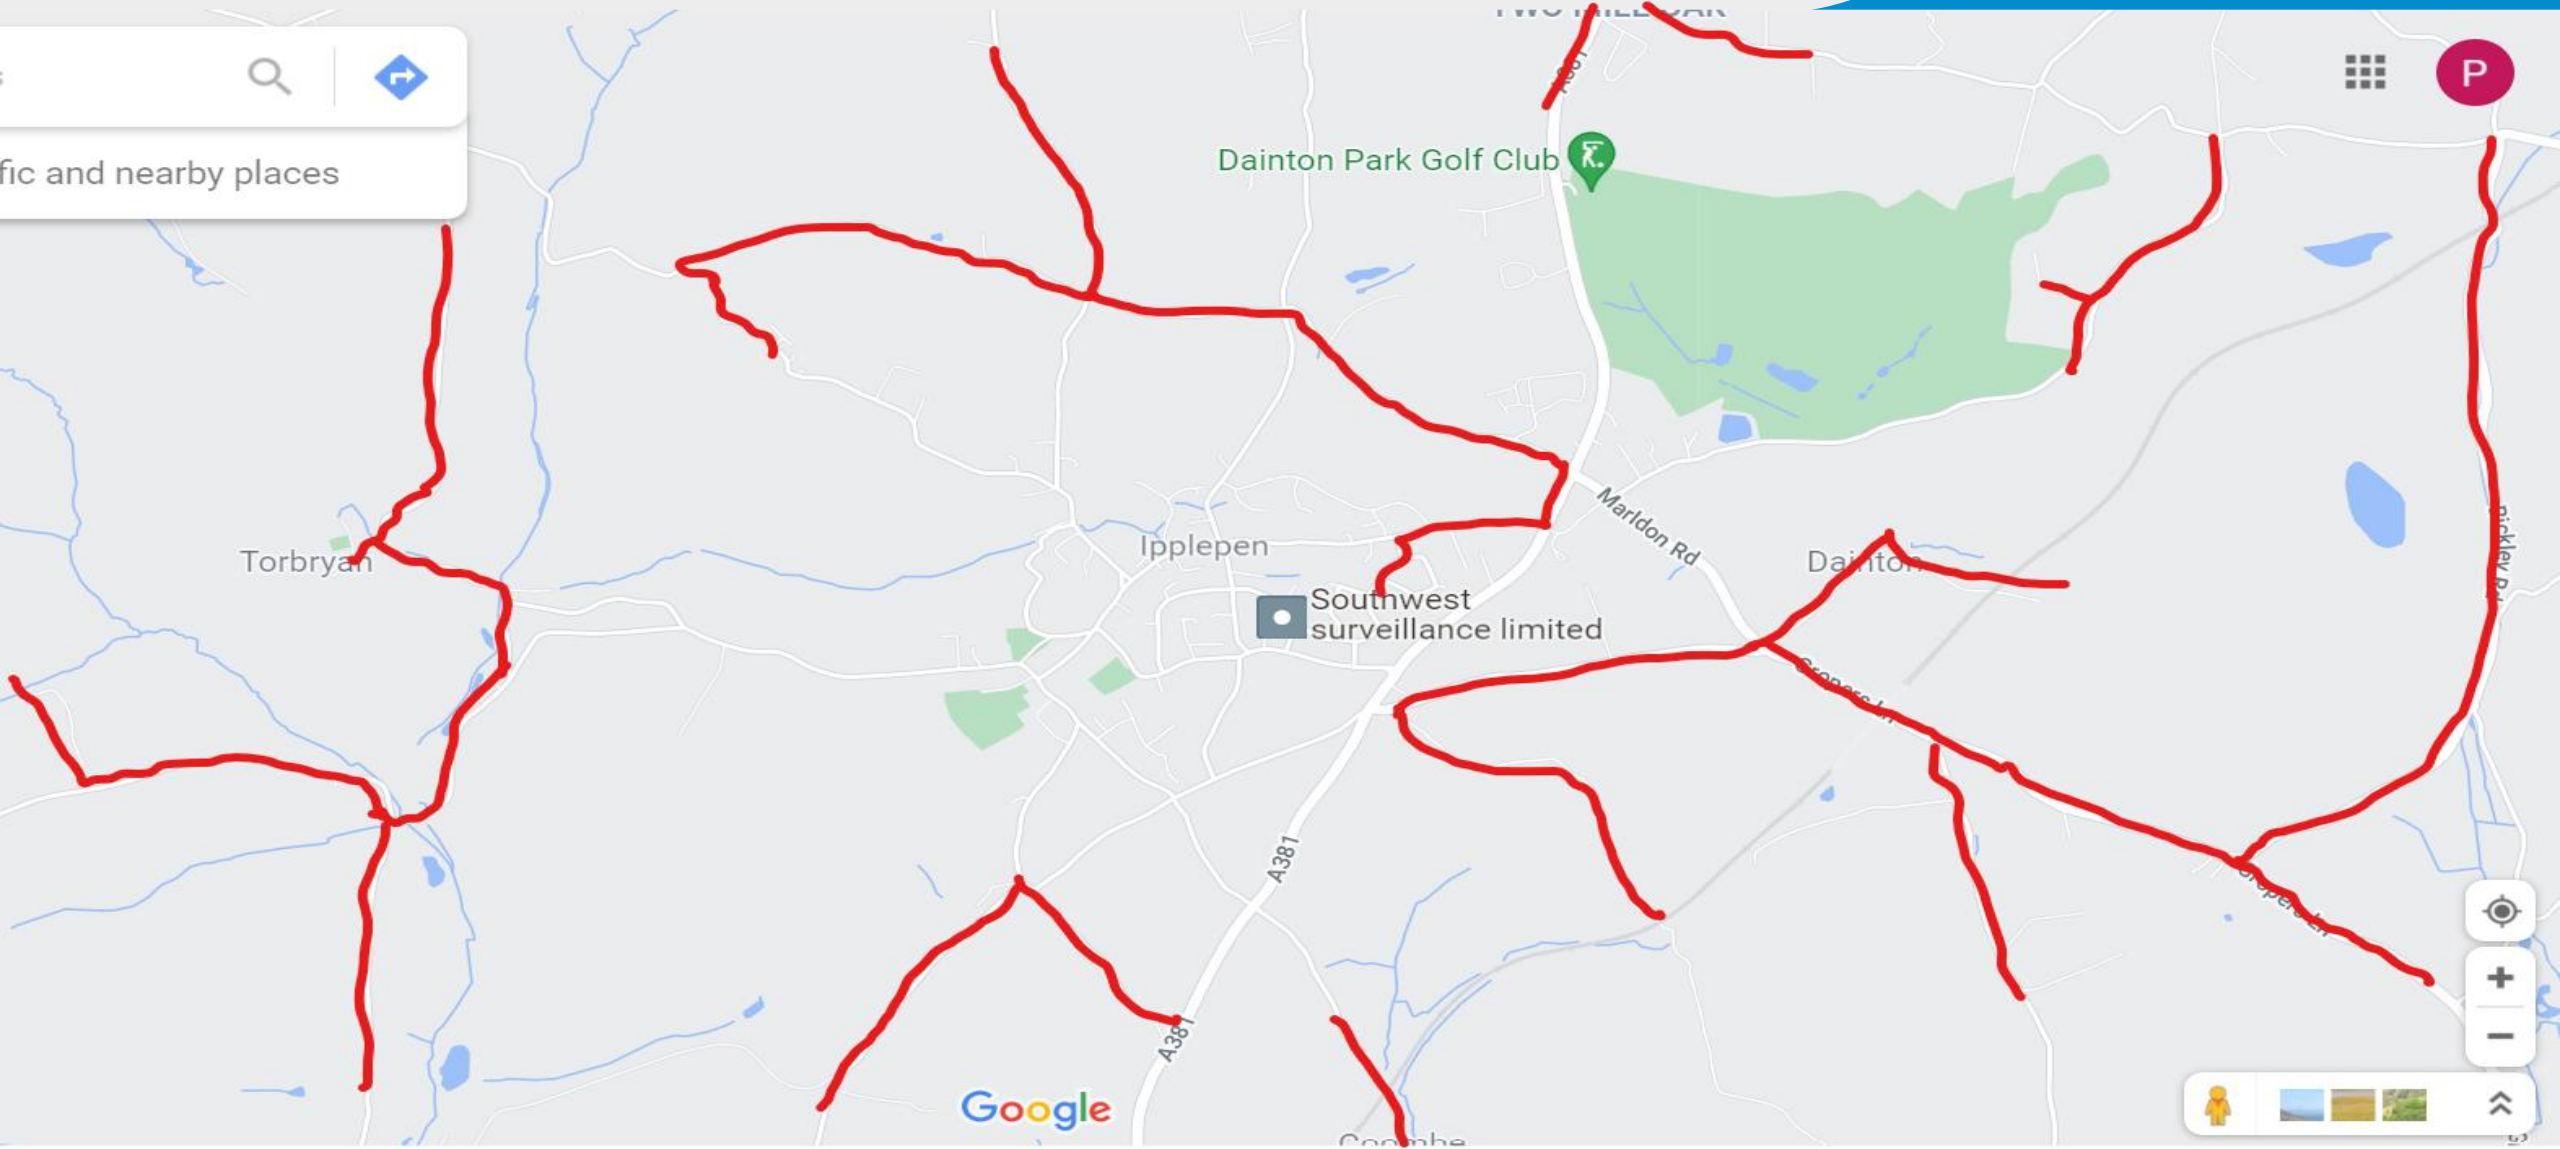

What support services do you offer?

Our helpdesk operates 24 hours a day, 7 days a week. All residential packages come with a free standard 5-day Service Level Agreement (SLA). Enhanced SLA's and business services are available.

Can I use another ISP?

All CDS contracts including the Airband contract have a requirement that any Internet Service Provider that wishes to can deliver a service over the Network however, there is no requirement for any Internet Service Provider to do so, and only on their request to Airband. Conversations are going on within the industry to ease the process of integrating Internet Service Providers and Network systems.
